Blended Emergency First Aid at Work

Description

This course enables you to do 2 hours pre-learning online followed by a 4 hour face to face session to cover all the practical elements of the course. It is fully compliant with HSE criteria for Emergency First Aid at Work.

Topics include:

- Roles and Responsibilities of a First Aider
- Incident and Casualty Assessment and Reporting
- Dealing with an Unconscious Casualty
- Asthma
- Minor Injuries
- Eye, Ears and Nose injuries
- CPR and AED (defibrillator)
- Choking
- Seizures
- Shock
- Burns
- External Bleeding

Duration: Approximately 6 hours

Access: This online course can be completed on any PC or mobile device. Learners can study at their own pace and log in and out as often as they wish.

Features:

1. Our online module appeals to all learning styles with interactive quizzes, video and audio features.
2. It allows you to work at your own pace, testing your knowledge as you progress through the course.
3. It provides a very thorough resource for those with English as a Second Language, giving you the vocabulary, language skills and confidence to pass the practical course.

Assessment*: Self checks after each section of the course and an end of course multiple choice assessment.

Certification: On successful completion, learners can download a certificate as evidence that they have passed the course.

Accreditation: This course has been approved by the CPD Accreditation Group and qualifies for 6 CPD points. It has also been approved by the FAIB (First Aid Industry Body).

*For enhanced quality assurance, it is strongly recommended that the elearning module is completed prior to the practical face to face training day to ensure that learners have the opportunity to ask their trainer any questions about what they have learned and so that the trainer can test learners' knowledge in the classroom before issuing the Full Paediatric First Aid certificate.
